Location Milan IT

◇ PROFILE

Full stack developer focused on streamlining and integrating internal and external business processes. Front-end driven: polished, performant products without trading away the experience.

◇ STACK

FRONT-END Flutter / Dart · React · Vue 3 · Angular (TS) · TypeScript / JavaScript · Tailwind · SCSS · Vite

BACK-END C# / .NET · ASP.NET Core · Microservices · Deno / Edge functions · Node · Entity Framework · GraphQL

DATA PostgreSQL · SQL Server · MySQL · Supabase · SQLite (Drift)

CLOUD AWS (S3 / SES / SQS) · Cloudflare (Pages / R2) · Docker · Firebase FCM

◇ EXPERIENCE

- 01 Noiise** Co-Founder & CTO Oct 2025 → present
Personal venture. Co-founded and lead engineering end to end: product architecture, app, backend, and web.
- 02 Wash Out** Full Stack Developer Apr 2022 → present
Full-time. Building and shipping production web applications end to end.
- 03 NTI Italy** Full Stack Developer Jan 2020 → Apr 2022
Proprietary microservices platform for after-sales management, bespoke web apps, and Autodesk product customizations.
- 04 SB Italia** Full Stack Developer Nov 2013 → Dec 2019
Built and customized a proprietary ERP, then a new cloud web ERP; internal IT systems: CRM, helpdesk, telemarketing, expenses.

◇ EDUCATION

IIS Ettore Majorana Diploma di Liceo Scientifico Tecnologico 2007 → 2012
